evidencing the loan. To protect its interests, CCC may pay any unpaid taxes with respect to the collateral or land securing a loan made in accordance with this part, and if CCC does so, the borrower will reimburse CCC for such payment, and if unpaid by the borrower, such debt will become due immediately.

## § 1436.15 Maintenance, liability, insurance, and inspections.

(a) The borrower must maintain the loan collateral in a condition suitable for the storage of one or more of the facility loan commodities. For purpose of this section the term “loan collateral” will mean any property of any kind that was built or improved, or acquired using a loan made under this part.

(b) Until the loan has been repaid, the borrower will be liable for all damages to or destruction of the loan collateral. CCC will not assume any loss of the loan collateral.

(c) CCC may conduct annual collateral inspections to insure compliance with this part. The borrower must consent to such inspection as a term of the loan and failure to supply such access will put the borrower into default.

(d) Structures must be insured against all perils in all cases and must also be insured against flooding if the structure is located in a flood plain, as determined by CCC. Proof of flood insurance, if required, and proof of all peril structural insurance, must be provided to CCC annually. CCC must be listed as a loss payee on all peril and flood insurance policies.

(e) CCC will have rights of ingress and egress where the facility is located. Failure of the borrower to secure such access will render a borrower ineligible for the loan and, if a loan has already been made will constitute a loan default for which the remaining balance of the loan will become immediately due and payable.

(f) For sugar storage facility loans, in addition to the requirements of paragraph (d) of this section, sugar processors must also insure the contents of storage structures used as collateral

## § 1436.16 Foreclosure, liquidation, assumptions, sales or conveyance, or bankruptcy.

(a) The collateral or land securing a loan may be sold by CCC whenever CCC has declared the entire indebtedness immediately due and payable under this part as follows:

(1) If a demand for payment is not received by the due date acceptable to CCC, CCC may call the loan and initiate foreclosure proceedings by issuing a liquidation letter to the borrower.

(2) The debtor may voluntarily agree to allow removal of the collateral to facilitate sale by signing an agreement for sale. If the debtor objects to removal of collateral, the law of the State where the collateral exists will be used to foreclose on the property.

(3) For loans with movable collateral and no real estate lien, CCC may sell the collateral for the best price obtainable. Sales proceeds will be distributed in the following order:

(i) To CCC to satisfy the debtor's indebtedness including all costs associated with selling the collateral.

(ii) Payment to junior lien holders if approved by USDA's Office of the General Counsel and then to the borrower or other persons as determined appropriate by that office.

(4) For loans with non-movable or non-salable collateral, as determined by CCC, and no real estate lien, CCC may establish a claim according to 7 CFR part 1403.

(5) For loans secured with a real estate lien, CCC may obtain an appraisal of the property. Sales proceeds will be distributed in the following order:

(i) To CCC to satisfy the debtor's indebtedness including all costs associated with selling the collateral and the appraisal.

(ii) To junior lien holders if approved by USDA's Office of the General Counsel; or

(iii) To the borrower or other persons as determined appropriate by that office.
